## **DETAILED ACTION**

### ***Terminal Disclaimer***

The terminal disclaimer filed on February 28<sup>th</sup>, 2005, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of 10/445,614 has been reviewed and is accepted. The terminal disclaimer has been recorded.

### ***Oath/Declaration***

The oath is defective. A new oath or declaration is required because of the following reasons. The wording of an oath or declaration cannot be amended. If the wording is not correct or if all of the required affirmations have not been made or if it has not been properly subscribed to, a new oath or declaration is required. The new oath or declaration must properly identify the application of which it is to form a part, preferably by application number and filing date in the body of the oath or declaration. See MPEP §§ 602.01 and 602.02.

The oath is defective because:

It does not state that the person making the oath or declaration has reviewed and understands the contents of the specification, including the claims, as amended by any amendment specifically referred to in the oath or declaration.

It does not identify the city and either state or foreign country of residence of each inventor. The residence information may be provided on either on an application data sheet or supplemental oath or declaration.

It does not state that the person making the oath or declaration acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56.

It was not executed in accordance with either 37 CFR 1.66 or 1.68.

It does not include the notary's signature.

It does not have a ribbon properly attached.

Applicant is now required to submit a substitute declaration or oath to correct the deficiencies set forth above. The substitute oath or declaration must be filed within the THREE MONTH shortened statutory period set for reply in the "Notice of Allowability" (PTO-37). Extensions of time may NOT be obtained under the provisions of 37 CFR 1.136. Failure to timely file the substitute declaration (or oath) will result in **ABANDONMENT** of the application. The transmittal letter accompanying the declaration (or oath) should indicate the date of the "Notice of Allowance" (PTOL-85) and the application number in the upper right hand corner.

**Examiner's Note:** Should Applicant wish to file a substitute declaration in accordance with 37 CFR 1.68, attached is form PTO/SB/01 (2 pages) for Applicant's convenience. It can be filled out by Applicant and filed within the time period stated above.

*Allowable Subject Matter*

Claims 1 and 2 are allowed.

The following is an examiner's statement of reasons for allowance:

Claim 1 is allowed by virtue of the terminal disclaimer filed February 28<sup>th</sup>, 2005, acknowledged above, and thus having overcome the obviousness-type double patenting rejection made in the previous Office action, dated February 24<sup>th</sup>, 2005.

Art Unit: 2882

Claim 2 is allowable for reasons as stated in the previous Office action noted above.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
